Practical Guide

META, o.p.s. prepared informative sheets with practical guidelines on the most common situations concerning the education of migrants in the Czech Republic. The texts are always in Czech language and on the second page of the sheet in another language version, so they can serve the parents of the pupils and their teachers, social workers, counsellors, officials, other helpers or simply anyone interested in these questions.

Laws, rules and practice in education, like everything around us, are changing all the time, so we chose a flexible and easy-to-update format (instead of, for example, a classic publication). You will be able to tell whether – for example, the latest changes in school legislation – have already been implemented into our materials by the date on each sheet.

In case you will find inaccuracies, errors or outdated information in the materials or you would welcome information
on other topics, please contact us at:poradenstvi@meta-ops.cz

All materials are the property of META, o. p. s and their copying and distribution are allowed only in the original unaltered form. Quoting is possible only with proper mention of the original source.

We hope you will find these materials useful!
